

Customer Complaint and Discovery Request

I, hereby, request surveillance AV of an incident which occurred between 4:00 PM and 4:30 PM on 08022020 at a Sacramento location in North Natomas Place shopping center for discovery.

Please send as attachment (converted to .mp4 format) to email address: jaakovos@gmail.com.

At the time, I entered to purchase. A male menaced myself with prolonged, malicious and conspicuous staring. He wore a mask with a large question mark printed over his mouth. Reasonably, I infer: the symbol was cryptic to convey intent to interrogate as he menaced.

Immediately, I addressed the criminal behavior to staff as I purchased referring to a joindered pattern of stalking by organized criminals. After all that had actually occurred conspicuously, I was answered with patronizing incredulity that contextually offended. I was informed: this male (conspicuously a mafia associate) was the local store-manager's husband. Peggy (manager) greeted me with, "Happy Sunday Jacob." As I left, she warned, "Now, please just be quiet Jacob."

I have needed to frequent Starbucks locations as a resource for weighty case-work and administrative matters. They are essential, with gravamen, in my life. I have appreciated the

gravamen, in my life. I have appreciated the places of public accommodation's wifi service and electricity provisions for charging IT devices for communications and productivity. Such resources are limited (especially now with local Covid policy further obstructing).

Just recently, by wifi, I have: 1. corresponded to law enforcement and F.B.I., and 2. performed case-workproduct remote storage over internet resources.

Over recent months (among other complaints) I have reported: I have observed a long-term, mafioso enemy, Frank Forchione (Judge of Stark County, Ohio Court of Common Pleas) stalking at same Starbucks location in Sacramento California. This was on a business day (conspicuously negligent to his office). He awaited my expected approach (a recent pattern) in a white van, acknowledged myself with eye-contact and an affectatious smile, and sped away. I have been experiencing a pattern of Retaliatory Stalking and Harassment by illegal, and unimaginably overzealous surveillance of a network of organized crime colluders. I possess proof of incessantly impetuous, malicious intrusion by illegal hacking and surveillance. His intent to menace with a sociopathic and pretentious manner was obvious.

Amongst other dynamics, Peggy's behavior, as described above, is consistent to betray complicity and collusion in a Conspiracy to

described above, is consistent to betray complicity and collusion in a Conspiracy to Commit Various Crimes as reported with these Continued (from Canton, OH), especially Cathy Altieri assigned to discredit my mental state. Cantonites also include (obviously per my experience) past co-churchmembers I have since discovered (unfortunately) are actually Crypto-Occultic Anti-Christians, with retaliatory intent to maliciously implucate, incriminate and record tamper by Racketeering, in collusion with Roman Catholic mafioso such as Forchione and the Russo family. I have, therefore, left there so-called Christian Church. Their central motive is persecutorial, religious hostility with malice intent to violate Fundamental Rights of the 1st, IVth, IVth and VIth Amendments criminally. And they are defiantly mad being Satanic.

Previously, I have complained to local management of other stores about other patterned incidents joindered in same context. These conspirators are exploiting resource locations to Disrupt criminally. I have resented differential treatment evincing design toward these ends. [For example, from last year, I have record of an incident of a murder threat directly in front of location on Folsom Rd. at the corner of Howe Rd. in Dacramento, CA. Also, I have record of an equivalent incident at Alhambra Rd. location. For both, there was no response to dispatch calls and staff did not assist but

these ends. [For example, from last year, I have
record of an incident of a murder threat directly in
front of location on Folsom Rd. at the corner of
Howe Rd. in Dacramento, CA. Also, I have record
of an equivalent incident at Alhambra Rd.
location. For both, there was no response to
dispatch calls and staff did not assist but
ignored.]

Please see relevant AV evidence: a YouTube
video privatized. Means of attaching by email are
technically obstructed as of the bizarreness of
recent internet state. I plan to research
instruction for choosing to send by social
network as Facebook. Please retain attention to
expect as attachment:

<https://youtu.be/3RrFBPurs3s>.

Please investigate to address these concerns
of this customer with needs that resources not
be obstructed or harassed.

LOOK... I tried to make a valid customer-service
complaint by feedback as an anomaly itsrlf, then
it was rejected and referred to this and other
links! You have obscured contact. This is
consistent with an obviously bizarre conspiracy
of sabotage in this country obstructing
telecommunications necessary! I highly resent it!
Correct this to traditional formats! I will persist!
I will subpoena with actions when it becomes
relevant with causes.
